IMPORTANT INSTALLATION & SAFETY INSTRUCTIONS

READ CAREFULLY BEFORE INSTALLATION & USE

DO

1. 

Check Battery Voltage before connection
2. 

Verify Battery Polarity (+ / -) before switching ON
3. 

Verify PV (Solar) Polarity & Voltage
4. 
Use Recommended Cable Size & Proper Copper Lugs
5. 

Install Proper DC Fuse / MCB
6. 
Connect Proper Earthing
7. 

Use Single Phase + Neutral Only
8. 
Tighten All Connections Properly
9. 
Install in Dry & Ventilated Area
10. 
Use Solar Grade Cables & Connectors

DON'T

1. 
Do NOT Reverse Battery Polarity
2. 

Do NOT Reverse PV Polarity
3. 
Do NOT Connect 415V Two-Phase Supply
4. 

Do NOT Exceed PV Voltage Limit
5. 
Do NOT Mix Different Batteries
6. 
Do NOT Use Loose or Undersized Cables
7. 
Do NOT Operate Without Earthing
8. 
Do NOT Install in Rain/Moisture Area
9. 

Do NOT Interchange Neutral & Earth
10. 
Do NOT Open or Modify Inverter Without Authorization

WARRANTY VOID IF DAMAGE CAUSED BY:

ALWAYS CHECK:

BEFORE SWITCHING ON
